

BASS  ROCK

OUR CAPABILITIES

CAPABILITY STATEMENT

PROJECT & PROGRAMME MANAGEMENT

Bass Rock delivers comprehensive project and programme management services. Taking a disciplined approach to planning and delivery, our consultants deliver projects on time and within budget while also being able to carefully coordinate multiple interrelated projects to deliver broader outcomes within a programme.

With a proven track record of implementing governance, processes, tools & techniques to the highest quality standards, we are committed to ensuring the success of our clients' initiatives and provide the control and direction required to drive projects and programmes forward. Our qualified project and programme managers enable teams to deliver outputs, coordinate resources and ensure clear communication throughout the project lifecycle.

Capabilities:

Project Planning and Scheduling: We develop detailed project plans that outline key milestones, deliverables, and timelines with oversight and control at programme level to ensure full alignment with wider objectives.

Risk Management: Our proactive risk management framework identifies, assesses, and mitigates potential risks, ensuring programme stability and resilience alongside diligent management at project level.

Resource Management: Optimising the allocation of personnel, equipment, and materials against the schedule, we can help you maximise efficiency and output across complex projects and programmes.

Stakeholder Engagement: We help to build and maintain relationships with your stakeholders through meticulous planning and management of communication which is clear, consistent and coherent across the programme.

Whole team approach: Bridging the gap between technical and non-technical experts, we help to establish a level playing field where all voices are heard regardless of specialism.

Quality Assurance: Rigorous quality control processes to ensure that all aspects of the project meet or exceed expectations.

Project Leadership: Providing seasoned project managers to lead and guide projects from inception to completion.

Process Optimisation: Analysing and improving project-related workflows for greater efficiency and effectiveness.

Change Management: Assisting organisations in managing the human side of change during project implementation.

Experience:

Client Success: We have worked across a multitude of some of the most complex and politically sensitive projects in government, tailoring our services to meet the unique needs and objectives of each one, including projects within the Submarine Delivery Agency, Defence Equipment and Support and Defence Strategic Command.
